

MOBILE BANKING ACCESS THROUGH YOUR CELL PHONE

Mobile Banking is our latest product which works in conjunction with our Online Banking program and will be available starting November 28, 2017. Mobile Banking allows you to view your account balances, look at transaction history, transfer funds within your accounts and receive alerts in a concise format that fit your cell phone screen. All you need is a smart cell phone for this free service.

Before you start Mobile Banking, you will need to complete the Online Banking registration by doing the following steps:

1. You must sign up for Online Banking (if you have not previously used this service). Go to our website at www.oahufcu.org, click on the Online Banking link and follow the prompts to complete the registration process. Online Banking is FREE.
2. Next, login to Online Banking and click on the Mobile Setup icon in the upper right quarter of the screen and follow the prompts to activate your Mobile Banking for your account. You can also activate Finger Print login at the same time if you authorized your cell phone for this feature. Please note if you do not activate the Finger Print login it will not appear on your cell phone App.
3. Go to the App store (for iphones) or Google Play (for android phones) and use the Search feature to find our App. Type "Oahu FCU Mobile Banking" to locate the App. The App will show our logo and Oahu FCU Mobile Banking. Proceed to download the App.
4. Click the login icon on the App using your existing user ID and password from Online Banking or your finger print if you enabled the feature.
